FORMER BLAIRMORE
SCHOOLBOY KILLED
NEAR ACME, ALMA

Word reached here yesterday morning from Drumheller, stating that William T., eldest son of Mr. and Mrs. Allan Hamilton, had died from injuries sustained when a speeder on which he was riding plunged over a bridge near Acme on Tuesday evening, falling fifty feet and pinning him underneath it.

Three other men were on the speeder, but only Hamilton and a man named Elmer Croteau were injured. Croteau sustaining a broken leg, while Hamilton had a broken back and fractured skull. Both injured men were brought to Kneehill on the C.P.R. train that night and from there were conveyed to Drumheller hospital by ambulances. Hamilton was unconscious when picked up and never regained consciousness.

The accident happened during a terrific wind and dust storm. Hamilton was a resident of Drumheller, his father being a surveyor for the Northwestern Fuel Co. here. It is understood that an inquest will be held.

William, better known among schoolmates here as "Billy," was about twenty years of age and a most promising youth.

The sympathy of all friends in this district is extended to Mr. and Mrs. Hamilton in their bereavement.

JOSEPH STOBBS, HILLCREST
TO BE LABOR CANDIDATE

At a large attendance, delegates from all parts of the Rocky Mountain riding, held here on Monday evening, Joseph Stobbs, of Hillcrest, was the unanimous choice of voters to represent them at the poll in June the 19th.

The effort of the Communists to have their candidate, John O'Sullivan, endorsed, was defeated.

The meeting was addressed by Fred White, provincial Labor leader, and others.

Joseph Stobbs has been a resident of The Pass for a number of years and is very well and favorably known throughout this end of the Rocky Mountain constituency.

SHERLOCK HOLMES WORLD'S MOST POPULAR SLEUTH

Detectives may come and detectives may go, but Sherlock Holmes apparently goes on forever.

That is the deduction to be drawn from the actual statistic obtained from the reference department of the New York Public Library.

Despite the tremendous popularity of some of Holmes' more recent successors and imitators, the great figure from Sir Arthur Conan Doyle's brain continues to hold his place against all comers in the hearts of the reading public.

"Sherlock Holmes has always been a favorite," says Miss Frances M. Kantor, of the reference department of the New York Public Library. "I can truthfully say that there has been a steady demand for the Sir Arthur Conan Doyle stories that has kept this group of stories in the forefront of library popularity."

Now "The Return of Sherlock Holmes" has been made into an all-talking Paramount picture and will show at the Orpheum theatre next Monday, Tuesday and Wednesday.

Clive Brook is featured in the role of the master detective and a strong supporting cast has been assembled for the principal roles in this New Show World mystery play.

LITTLE BLAIRMORE
BOY LOST'S HAND

Playing near the railway track with other lads on Tuesday evening, the little nine-year-old son of Mr. and Mrs. Jack Maddison had the misfortune to fall, his hand crossing the rail and being run over by a freight car, severing the right hand at the wrist. With remarkable courage, the little lad grasped the broken limb and walked a considerable distance to his home, where upon examination by the doctor, it was found nothing could be done to save the hand. The lad was at once to hospital, where the limb was amputated above the wrist.

ACCIDENTAL DEATH VIREKT

The inquest into the cause of death of little Emily Kubasek concluded at Bellevue on Thursday evening last, when the following verdict was returned:

"We, the jury, find that Emily Kubasek met her death accidentally, having received a fracture of the skull by being hit by a motor car driven by John Debec, on the main highway approaching Maple Leaf. Time of accident, approximately 12:15 noon on Monday, May 12, 1930.

"We, the jury, recommend that suitable traffic slow signs be placed at the approach to Maple Leaf on the east, and at the west approach to Bellevue.

(Signed): Charles Emmerson (foreman), Fred Padgett, James Cousens, Fred Wolstenholme, Harry Meade, G. K. Street."

STAGE AND SCREEN STARS IN "HAPPY DAYS"

What is truly the greatest aggregation of singing, dancing, comedy and dramatic stars of the stage and screen, may be seen and heard at Cole's Theatre, Bellevue, where the Fox Movietone production "Happy Days" is now showing.

Only the marvel of the sound screen could allow a production of this magnitude, for no amount of money paid or offered could result in gathering together, for a stage performance, glittering galaxy, nor could any stage yet built produce the marvelous numbers seen and heard on the screen in this picture.

There is a delightful romance running through the production, a boy and girl romance, played by Marjorie White and Richard Keene, and there is a fine tribute paid to stage players in the incident which shows a billion dollars worth of personality journeying to a southern town and giving, without pay, a stupendous entertainment solely to help old Colonel Billy Batcher, played by the veteran actor, Charles E. Evans, out of financial difficulties, a humanness and a character side of stage and screen stars which has never been in evidence in real life.

High spots of the entertainment is the tremendous minstrel first part with George McFarlane and James J. Corbett alternating as interlocutors and with specialties by George Olsen and H'a Music; Victor McLaglen and Edmund Lowe, Tom Patricola, Walter Catlett, William Collier, Sr., Frank Richardson, El Brendel, Lew Brice, the Slate Brothers and a score of others with the screen populated by a marvelous singing chorus of more than 100 in black and white minstrel costumes with a truly gorgeous setting enhancing the ensemble.

The Mohammedan Law

Egyptian Judge Rules Women Do Not Have To Be Educated

Girls having equal opportunity with their brothers for a public school and even a college education, should be thankful they live in a country of religious liberty, says a newspaper writer.

A mother in Cairo, Egypt, petitioned the court for an order compelling her husband to make financial provision for their daughter's education. The judge declined to issue the order on the grounds that Mohammedan law does not require a Moslem to educate the women of his family, and adds as his personal opinion that women should not be educated.

The Cairo judge, who places mental suffering, the most abject form of slavery, on a sex basis, would find himself sitting on a keg of dynamite instead of a bench in lands of growing sex equality.

The ideal state is the one in which opportunity for public service would be limited only by the ability of the individual to perform such service.

Miss Constance A. Harvey, of Buffalo, newly appointed foreign service officer, is assigned to Ottawa as American vice-consul. Miss Harvey received her appointment as the result of an examination which inquired into the matter of mental fitness, not of physical conformation.

FRILLS AND FURBELLOWS

All Tinge models are created in Paris and sketched by her there. The patterns are made and adapted for American women in New York by American patternmakers.

Even though we won't go back (it is to be hoped) to trailing them in the mud, we have returned to a certain wishiness about the ends of our skirts. And it's really rather lovely to be able to flounce about, don't you think?

Here's a lovely little frock with a heap of jauntyness to finish it. It can be belted where you please, too, natural line or lower.

Midnight blue moire was chosen for this model, with dainty collar and cuffs of cream lace. The frills were pleated.

Marocain, satin, crepe de chine, georgette, besides numerous printed effects could be chosen for this model. If the model is preferred without collar and cuffs, the V-neck can be finished with a bow of self material.

This pattern may be obtained in sizes 16 to 20 and 34 to 42. It is ready for immediate delivery. It is hand cut.

Pattern price 25 cents. Be sure to fill in size of pattern. Address Pattern Department.

Five Powers Sign Reparations Plan

Commission Disappears and World Bank Will Soon Be in Action

The Young plan for payment of reparations, reducing Germany's obligations for damages caused during the world war from something like \$25,000,000,000 to about \$9,000,000,000, has gone into effect.

A protocol registering the decision of the Reparations Commission, which adopted the plan January 2, was signed by the ambassadors of Great Britain, France, Belgium, Italy and the French Minister of Foreign Affairs, after a tea served by the French Foreign Minister, Aristide Briand.

The first consequence of this act, which modifies for a second time the reparations machinery provided by the Versailles treaty, will be the disappearance of the reparations commission which, in co-operation with other bodies, has taken charge of payments under the Dawes plan.

The second will be the beginning of functioning by the bank for international settlement at Basel, Switzerland.

The third will be the issuance of \$300,000,000 in reparations bonds, two-thirds of that going to creditor nations and the other third to Germany for internal requirements.

Two Tested Recipes For Salad Dressings

Now that salads are the order of the day, really good recipes for salad dressings will be welcome. Dressing is often made or marred by the pliancy of the dressing used, so the following recipes are very desirable. Since some prefer an uncooked dressing and others a cooked dressing, we give two recipes, both of which we know will please.

SALAD DRESSING (Uncooked)

Two eggs beaten until light; 1/2 teaspoon salt; 1/2 teaspoon mustard; 1/2 cup Eagle Brand Condensed Milk; 1/2 cup vinegar. Beat the first four ingredients vigorously for a few minutes add the vinegar, stir well and set aside for a few hours to thicken. Excellent for fruit or vegetable salad. Will keep for several days.

SALAD DRESSING (Cooked)

Half a tablespoon salt; 1 teaspoon mustard; 1 tablespoon flour; 1 tablespoon butter; 1/2 cup Eagle Brand Condensed Milk; 1/2 cup water; 1/2 cup vinegar; 1 egg. Mix dry ingredients, add slightly beaten egg, butter, milk, water and vinegar. Cook until thickened. Strain and cool. Whipped Borden's St. Charles Evaporated Milk, or cream, may be added before serving if desired. Yield, 1 cupful.

MILBURN'S HEART NERVE-PAIN

Englishwoman Gave Valuable Information Regarding Movement Of Enemy Ships

A woman who sat for four hours by her telephone transmitting to Admiral Sturdee information which proved of great importance, in the Battle of the Falkland Islands, arrived in London, England, recently, with her husband.

She is Mrs. Creamer, formerly Mrs. H. S. Polton, the daughter of an English professor, who settled in the islands, which are about two hundred and fifty miles from the Mainland of South America.

Mr. Creamer told a press representative the story of his wife's presence of mind and initiative which resulted in the sinking of three German ships, and earned for her a silver salver, which was presented by the British Empire, and the Order of the British Empire.

"On December 8, 1914," Mr. Creamer said, "my wife was at home, in her farmstead, at Fitzroy, with her three children, two maids, and a boy servant. Her words reported to her that they had seen from a hill near three German ships making for Fitzroy."

"Two of these were the Baden and Santa Isabel. The third vessel is believed to have been the Selkirk - either a hospital ship or a transport."

"She immediately ordered the maids to saddle two horses, and to ride in relays to the top of the hill, and report to her every few minutes the ships' movements. Meanwhile, she telephoned to the authorities, at Stanley, and her reports were rushed to Admiral Sturdee."

"She sat there for four hours, with her baby boy in her arms, while her messages directed the movements of 'Bristol' and of the armed liner 'Macedonia', which set out in pursuit of the Germans."

"The enemy tried to steam at full speed for safety, but the information which reached Admiral Sturdee, minute by minute, enabled the British to follow them. In a few hours, the 'Bristol' and the 'Macedonia' had caught and sunk the ships."

Rivalry In Building

Plans Are Frequently Changed After Construction Has Started

The race to see which country shall build the largest ocean liner suggests the competition in New York to erect the highest skyscraper. It is known that plans for some of the tall structures that are now changing the Manhattan skyline, were successively altered, even after construction had begun, in the light of news of competitors' intentions.

According to word from London, the White Star Line has adopted an entirely new set of designs for its giant "Oceanic," which is to be of 65,000 instead of 60,000 tons as originally planned. It will be the world's first 1,000-foot vessel.

"The 'Majestic' now the longest, is 915 feet. The 'Leviathan' is 907, but the 'Leviathans II, and III,' to be built by the United States Lines, will be 965."

Proved Her Greatness

Late Emmeline Pankhurst Was Martyr To Good Cause

What remains unforgettable is that in her own person Emmeline Pankhurst bore the burden of a martyrdom that would be incredible to us today if we failed to realize that it happened in another world because she helped to make it so.

Whether she addressed thousands from the platform or led twelve women into the horrors of Parliament Square, whether she marched at the head of a procession five miles long, or fought single-handed in the dark solitude of her prison cell, she gave always that impression of greatness which is inseparable from possession of unshakable conviction and invincible courage, and which makes the martyr of all the ages.

She—"Now that we're engaged, dear, you'll give me a ring, won't you?"

He—"Yes, certainly, darling. For what's your number?"

At a rough estimate the animals in the London Zoo represent a total value of about \$175,000, the Indian rhinoceros being one of the most valuable, costing more than \$5,000.

JESUS DESCRIBES THE FUTURE OF THE KINGDOM

Golden Text: "Take ye heed, watch and pray: for ye know not when the time is."—Mark 13:33.

Lesson: Matthew 24:1 to 25:13.

Devotional Reading: Isaiah 55:1-3, 6-8.

Explanations and Comments

The Parable Of The Wise and Foolish Virgins, 25:1-13.—The Kingdom of Heaven Jesus likened to ten virgins who went forth with their lamps to meet the bridegroom. Five of them were wise (prudent), and carried oil in their oil vessels, but five were foolish (imprudent), and took no extra supply of oil.

While the bridegroom tarried they all slept. There is no hint of reproach in this statement; the bridegroom might tarry a long time. Midnight came, and the approach of the bridegroom was announced. All the virgins arose and trimmed their lamps preparatory to going forth to meet him. The foolish ones then found their lamps were going out, and begged the wise ones to share with them their oil. But the wise virgins refused lest there might not be enough for them all, and counselled them to buy their oil and buy oil.

"While the foolish virgins went forth to buy their oil the bridegroom came: those that were ready went in with him to the marriage feast, and the door was shut."

A little later the foolish virgins arrived and begged to have the door opened. "I only say unto you, I know you not," was the only answer they received.

Watch, therefore, for ye know not the day nor the hour. He found them unprepared. "It is not enough to have a lively zeal for a while; we must have, in addition, a perseverance that never tires."—Calvin.

A Growing Industry

Production From Inland Fisheries In Manitoba Shows Great Gain

While agriculture, the basic industry of Manitoba, together with manufacturing, mining, and other industries has advanced substantially in the province in recent years, the production from the inland fisheries has probably shown the greatest gain. In the past five years the fisheries production has increased more than 100 per cent. In 1924 the market value of the fish caught in Lake Winnipeg, Manitoba, Winnipegosis and other lakes was \$1,232,000, while last year it was \$2,634,000. In 1929 the commercial fishermen of the province caught 33,000,000 pounds of fish, a record for Manitoba, with a market value of \$2,634,000.

Vancouver Port Busy

Commercial shipping entering the Port of Vancouver during March showed marked activity, the net tonnage being about a million. The movement showed 1,909 arrivals with a tonnage of 966,288. Deep sea arrivals totalled 106, with a net tonnage of 405,566.

Explanations and Comments

The Parable Of The Wise and Foolish Virgins, 25:1-13.—The Kingdom of Heaven Jesus likened to ten virgins who went forth with their lamps to meet the bridegroom. Five of them were wise (prudent), and carried oil in their oil vessels, but five were foolish (imprudent), and took no extra supply of oil.

While the bridegroom tarried they all slept. There is no hint of reproach in this statement; the bridegroom might tarry a long time. Midnight came, and the approach of the bridegroom was announced. All the virgins arose and trimmed their lamps preparatory to going forth to meet him. The foolish ones then found their lamps were going out, and begged the wise ones to share with them their oil. But the wise virgins refused lest there might not be enough for them all, and counselled them to buy their oil and buy oil.

"While the foolish virgins went forth to buy their oil the bridegroom came: those that were ready went in with him to the marriage feast, and the door was shut."

A little later the foolish virgins arrived and begged to have the door opened. "I only say unto you, I know you not," was the only answer they received.

Watch, therefore, for ye know not the day nor the hour. He found them unprepared. "It is not enough to have a lively zeal for a while; we must have, in addition, a perseverance that never tires."—Calvin.

A Growing Industry

Production From Inland Fisheries In Manitoba Shows Great Gain

While agriculture, the basic industry of Manitoba, together with manufacturing, mining, and other industries has advanced substantially in the province in recent years, the production from the inland fisheries has probably shown the greatest gain. In the past five years the fisheries production has increased more than 100 per cent. In 1924 the market value of the fish caught in Lake Winnipeg, Manitoba, Winnipegosis and other lakes was \$1,232,000, while last year it was \$2,634,000. In 1929 the commercial fishermen of the province caught 33,000,000 pounds of fish, a record for Manitoba, with a market value of \$2,634,000.

Vancouver Port Busy

Commercial shipping entering the Port of Vancouver during March showed marked activity, the net tonnage being about a million. The movement showed 1,909 arrivals with a tonnage of 966,288. Deep sea arrivals totalled 106, with a net tonnage of 405,566.

A Lucky Catch

Sentry Receives \$20,000 For Saving Life Of Prince At Belgrade

One of King's Alexander's gigantic guardmen recently was given an indefinite leave of absence after receiving a reward of 100,000 dinars (nearly \$20,000), for having quite inadvertently saved the life of the 2-year-old Prince Tomislav, the second son of the King.

The Prince was playing in the apartments of his mother, Queen Marie, on the second floor of the palace, at Belgrade, when suddenly he fell from a window. The sentry, who was passing at the moment, perceived the full weight of the child on his shoulders. The Prince clutched the sentry around the neck and sid to the ground unhurt, but the burly guardsman was knocked unconscious and crumpled to the ground.

CHAPTER XIII—Continued

"Oh, Grandma! You might have made him angry."

"Not Gam Garfield. He likes to make believe he's stern, but he's real good-natured underneath. He laughed. I guess he forgot he was a lawyer with an important case. And then he sat right down where you are, child, and said: 'It's you who ought to be spanked, Grandma Davis. You charged my client ten dollars for a string of beads that's worth about ten cents.'"

"Ten dollars!" gasped Charman. "What an idea! But you did charge too much, Grandma, and—"

"I never heard there was a law to keep a body from getting as much as he could in a trade," interrupted the old lady. "I said as much to Gam, and he had to admit that the law was on my side—considering. And I told him, too, that if Edgar Purdie said he paid ten dollars for those beads, why he was a liar on top of all his other sins. I was real indignant."

Troubled though she was, Charman couldn't suppress a laugh at the picture Grandma's words brought up. "I guess he saw I was kind of riled," went on the old lady, "because he said, 'Don't you worry,

READ OF A CASE LIKE HER OWN

Decided to take Lydia E. Pinkham's Vegetable Compound

Moncton, New Brunswick—"Before my last baby was born I was very weak, nervous and discouraged. I saw an advertisement in the paper about a woman who had been like me so I bought a bottle of Lydia E. Pinkham's Vegetable Compound. I took three bottles and I carried no anxiety through that critical time. I have three children to care for and I feel well and strong. I have told two other women about your medicine."

W. N. U. 1838

Grandma. I won't let you get into any trouble if I have to commit perjury myself to prevent it; but what did the deacon pay for those darn beads?"

"Did you tell him?" asked Charman breathlessly.

"I did; but not till I'd asked if he was making a social call or one in the interest of his client. He grinned and said, 'You ought to have been a lawyer yourself, Grandma Davis; but I'm just dropping in to pass the time of day with an old friend.' So I told him the whole story, Charman. Honestly, child, I thought he'd have hysterics. There wasn't a shred of dignified lawyer left in him when I got through."

"But what's he going to do?"

"It don't make a mite o' difference to me what he does, so long as we're not dragged in; and we won't be, or I don't know Gam. He said, confidentially, that he thought when the deacon cooled off a little, and he pointed out the big expense of a law suit, that it would all be settled out of court. Just now Edgar's mad clean through. He says Lieke is the only woman he ever proposed to that refused him, and claims that she led him on something scandalous."

"Well, dearie, maybe you'd better get us some dinner. It's been an exciting morning and I feel all gone. On top of everything else there was a fearful cut right in Lizzie Baker's yard. I could hear the yowls as loud as if they were in this room. They'd be at it now if George K. Knowles hadn't come along and turned Lizzie's nose on 'em. And there are folks who say that nothing happens in Wickfield!"

Charman laughed as she went toward the kitchen, glad there was enough excitement on hand to keep Grandma from asking too many questions about her ride with Jim; but as they were finishing their meal the old lady queried suddenly: "Did you enjoy your ride? And did you get my catalogue from Emmy?"

"Oh dear!" cried Charman. "I left it in the car."

"It's no great matter," responded Grandma comfortably. "If Jimmy finds it he'll bring it 'round to-night. Like as not he'll be glad of an excuse to come. Did Emmy say what she was ordering?"

"A hat," smiled Charman. She's not going to be outdone by Clara Darling."

"Do tell!" ejaculated Grandma. "Did she show you the picture, dearie?" There were some awful pretty hats on page fifteen. What color will it be? Green doesn't go well with most of Emmy's things."

Charman laughed.

"It's possible, you know, to buy some other color, even by mail. I didn't see the picture, Grandma. It was Jim who went in, and Emmy asked his advice about it."

"Then he can show me which one

it is when he brings the catalogue. Emmy's not liable to be extravagant, but it does seem risky getting a hat clear from Chicago. It might get mashed in the mail, and then where's she be? Maybe that's Jimmy now. There's an auto stopping. If it's you, call him in, dearie, so he can show me—"

"That you, Jim?" called Charman, half rising as the front door opened. "Come in a moment. Grandma wants you."

Jim, who had eaten hastily and was on his way back to the bank obeyed willingly enough. He had the bulky catalogue under his arm, and though he smiled at Grandma, his eyes shifted to Charman, as if to discover if she looked more cheerful than when he left her.

"You sit down," commanded Grandma. "I guess George K. can run the bank without you for ten minutes. Draw up a chair. I want you should show me the hat that Emmy Bascomb's been fool enough to order without first seeing the quality."

"Good thunder!" objected Jim. "This book is three hundred and fifty pages thick! How'm I to find—"

"The hats begin on page fifteen," broke in Grandma. "They look real pretty in the pictures; but I've never seen but one mail order hat, and except for making a good deal of commotion around town—"

"Grandma," Charman interrupted

sternly. "I've got a notion that Jim is sick and tired of hearing about that hat. Let him alone. He's got a right to admire a green hat if he wants to. The truth is, I liked it myself!"

"You did?" gasped Grandma, astonished; while Jimmy laughed, the first real laugh of the day—for him. For a moment his eyes met Charman's with their old twinkle, then returned to the book, and he said dubiously:

"It must be this one. I remember it kind of hung down one side, and had a red rose on the other."

"Read what it says, sonny. I haven't got my glasses."

Jim obeyed, reading with mock solemnity: "A dressy model with soft, girlish lines that you will simply adore. The trim is of two colors of dainty lace-patterned straw. Colors: black with a red rose; meadow pink with sand; gossamer blue with crab apple. Price only one-fifty-nine. Shipping weight two pounds." That sounds pretty swell, Grandma, doesn't it? Emmy was hovering between the black with the red rose, and the blue with the crab apples or carrots. I gave her a shove toward the blue, and ran, or she'd still be asking my assistance. Now I must skip, or George K. will think I've absconded with his interest money."

Again his eyes sought Charman's, but at the mention of interest, her face hardened, and she turned away. A moment later the whirl of an engine told her that Jim had gone, and Grandma said, lifting her eyes from the gaily colored page: "Seems as if that hat would be a little wide in the brim for Emmy; but you never can tell about a hat until you try it on. I think she's running a terrible risk, though they do say, 'money refunded if not satisfactory.' Still, they might make a fuss if she sent it back. Business men are hard-hearted to deal with—that is, some of 'em are, though Father always said there were exceptions."

"I'd like to find one, then," said Charman; but Grandma, still absorbed in Emmy's purchase, didn't notice the sudden bitterness in the girl's voice.

CHAPTER XIV.

It was with a very genuine glow of happiness that Charman learned that the school board had given her "District Four." Some years had passed since she graduated from the State Normal School—years when it was the best of her to stay with Grandma; but as it became increasingly difficult to meet expenses and the school board was so kind as to realize that something must be done, and to get the school only a mile from her own door was a vast relief.

Prince Knows Empire Well

Completed Ninth Tour When He Returned From South Africa

On descending from the sky into Windsor Great Park, the Prince of Wales had completed the ninth of his foreign and Empire tours. In 1919, just after the war, he came to Canada and the United States. In 1920, he went to Australia; in 1921-22 to India and Japan; in 1923 to Canada again; in 1924 to the United States; in 1925 to Africa and South America; in 1927 to Canada; and in 1928-29 to Africa, the last trip being cut short by the King's illness and completed this year. In this last trip he has traversed Africa from Cape Town to Cairo. He is the most travelled of Princes, the most travelled of world citizens. He has seen more of the earth-grinding Empire, over which he will one day rule, than any of his future subjects. Which is as it should be, for under the British constitution the King and Emperor who is well informed regarding his widespread dominions is often able to offer wise advice to his ministers.

Clover Leaf Rolls made with ROYAL YEAST CAKES are a Delightful Change

Try this recipe:

1 Royal Yeast Cake dissolved in one-half cup lukewarm water.
1 teaspoon salt

1 tablespoon sugar
3 cups flour
1 cup scalded milk
1 cup butter

Four the scalded milk over the sugar, salt and butter. When cooled to lukewarm add the dissolved yeast and one and one-half cups flour. Allow to stand well covered in moderately warm place over night, or if space is set in morning, let stand until light. Add flour enough to knead. Let rise again until double in bulk, then cut down and knead slightly. Butter muffin rings and place three small balls of dough in each ring. Let rise until double in bulk, brush over with melted butter and bake in hot oven.

Bread is one of the most nourishing of foods. It can be made more interesting, however, by occasionally varying the form of serving it.

If you bake at home, the Royal Yeast Cake Book will provide you with many practical tested recipes for all kinds of home-made breads. It will be mailed—free—on request.

Little Helps For This Week

"Behold I stand at the door and knock."—Revelations III. 20.

Open the door with shame if you have sinned.

If you be sorry, open it with sighs; Albeit the place be bare for poverty, And comfortless for lack of penitencing.

Be not ashamed for that, but open it. And take Him in that comes to sup with thee.

No power—not even that of God Himself—can open that door from the outside. Only the soul itself can open itself. But it, with perfect simplicity and unaffectedness, any one of us is able to just put aside the bolt of his own willfulness and open his door and say, "Almighty God, come in to me; Spirit of Christ, be Thou my Guest; Father, I have sinned, forgive me," then it is as if the sharper days of winter were melting into the approaching spring, and as if one of us came down some morning in his heated house, and should throw his door open to the gentle air, and there should flow in upon him the milder freshness and the purer fragrance of a renewing and reviving world.—Francis G. Peabody.

United States laws may have teeth in them, but as a contemporary says it the impression grows that they are false teeth—plates that can be taken out whenever wealthy folk are due to be bitten.

The upsets of Children

All children are subject to little upsets. They come at unexpected times. They seem twice as serious in the dead of night. But there's one form of comfort on which a mother can always rely: good old Castoria. This pure vegetable preparation can't harm the slightest infant. Yet mild as it is, it soothes a restless, fretful baby like nothing else. Its quick relief soon sees the youngster comfortable once more, back to sleep. Even an attack of

colic, or diarrhea, yields to the soothing influence of Castoria. Keep Castoria in mind, and keep a bottle in the house—always. Give a few drops to any child whose tongue is coated, or whose breath is bad. Continue with Castoria until the child is grown! Every druggist has Castoria; the genuine has Charles H. Fletcher's signature on the wrapper.

JOHN A. KERR
Blairmore Alberta

THE PASS FIFTEEN YEARS AGO

(The Blaimore Enterprise, 1914)

George Leonce Vasseur, a Belgian miner, has issued a writ against the C.P.R., claiming damages in the sum of \$25,000 in connection with his son Leon, who lost a leg last year by being run over by a freight train at Blaimore. L. H. Putnam is retained as Vasseur's solicitor.

August 7.—George Bradley, one of the old-timers of the Crows' Nest Pass, and former resident of Blaimore, died at Sentinel on Monday of this week. He leaves a wife, one son and three daughters to mourn his loss. The remains were laid to rest at Coleman on Wednesday afternoon. Rev. D. Watkins-Jones officiated at the funeral.

Catherine, wife of Lew Thorne, of the Cement Co. staff, died at San Francisco on July 17th, aged forty-six years.

In the district court at Macleod on Wednesday, Nick Kaylock, an Austrian miner of Bellevue, was acquitted on the charge of dynamiting the residence of a fellow miner.

In the Methodist church at Frank on Tuesday evening, a farewell was extended to Mrs. J. E. Wilcox upon the occasion of her leaving for their new home at Commerce.

J. Menard, of the West Canadian Collieries, who is a French reservist, left here for Calgary yesterday, en route to France for service.

Neil McInnis, formerly a business partner of A. A. Sparks in Blaimore, has taken over the management of the Alberta hotel at Pincher Creek.

Edwin Ernest Blais, Janet T. Nicol and Rennie Gresham were among those who passed in Grade X. at the recent departmental examinations.

Born, at Frank, on Thursday morning, to Mr. and Mrs. Evan Morgan, twin sons.

August 14.—The Alberta Liberal Association was reorganized at Calgary last week, with the following officers. Hon. president, Rt. Hon. Sir Wilfred Laurier; president, Alex. Allen, Calgary; first vice-president, W. J. McGrath, Edmonton; second vice-president, Alex. M. Morrison, Coleman; third vice-president, S. J. Sheppard, Lethbridge; fourth vice-president, D. Stuart, Cairns; fifth vice-president, Norman A. McClarty, Medicine Hat; secretary-treasurer, T. W. Quayle, Edmonton. J. E. Gillis represented Blaimore at the convention.

What might have proved a serious affair happened at the Middle Fork of the Old Man river near Cowley recently, while some boys were bathing. Albert Cleland was dragged down by the under current and was rescued with great difficulty by Cliff Crawford.

Japs at Regina have asked the privilege of joining Canadian troops for service overseas.

Three men are believed to have perished in forest fires that raged in the vicinity of Corbin last week.

Mrs. Maud Page, formerly on the Blaimore teaching staff, has accepted a position on the staff at Strathmore.

D. A. and Mrs. Sinclair motored to Lethbridge today.

A travelling salesman found himself in a village hotel dining room when a heavy downpour of rain set in. Addressing the waitress, he remarked: "It look like the Flood."

"Like what?" the girl inquired.

"Like the Flood. You've read of the Flood and how the ark landed on Mount Ararat, haven't you?"

"No, sir, I haven't seen a newspaper for three days," confessed the waitress.

The majority of motorists today were once pedestrians. It might be helpful in road courtesy to remember those times.

GET MAD AND BEAT THIS!

Father got so mad at an editorial that he tore up the paper and upset his coffee, which so upset mother that she bawled him out, whereupon he gave her a piece of his mind in tones that scared sister into a screaming fit, provoking brother into idiotic snickers, which so enraged father that he slapped both children, kicked the cat, rushed off without an overcoat or a goodbye kiss to mother and slammed the door so hard that he knocked down the "God Bless Our Home." In his blind scramble to catch the train, he upset the parson's wife, which so humiliated him that he got into the local instead of the express, which got him to the office thirty-five minutes late, which so infuriated the boss that he was promptly fired, which so sobered him up that he decided to get drunk and take a fresh start; but before he got started afresh he died of pneumonia.

Car Salesman: "And is there anything else I can show you about this new model?"

Young Lady: "Yes, please show me how to turn on the radiator if the car gets cold."

Parson (meeting neighbor bringing home a load of hay): "Jenkins, would it not be better if you attended services instead of working this way on Sundays?"

Jenkins: "Mr. Dawkins, I don't know whether it would be best to sit on the load of hay and think of religion, or sit in the church and think of the hay."

"I had something loose in my car last night."

"Gosh, did you get her telephone number?"

A man and his wife were having tea in a fashionable restaurant.

"Shall we dance, dear?" asked the husband, rising from his chair.

"That wasn't the orchestra playing," replied his wife. "The waiter dropped a tray of china."

"Why, old man, there were so many of us children, that we had to eat at three tables—first, second and third, you know, like a church supper. I was the unluckiest little feller in the world."

"Yes? How so?" said I.

"Why," said the opponent of birth control, "I, being the youngest, always had to eat at the third table—and believe it or not—I was 14 years old before I knew that a chicken had anything but a neck."

At the recent annual meeting of the Alberta Amateur Baseball Association, held at Stavelly, a vote of thanks was accorded the Press, particularly the Weekly Newspapers, for valuable support accorded the work of the Association. The new officers of the Association are as follows: honorary presidents, C. A. Hayden, Calgary, and J. A. McGee, Didsbury; president, Lyle Holland, Cardston; vice-presidents, E. C. Webster, Stavelly, and M. R. Maybank, Olds; honorary secretary-treasurer, E. D. Batrum, Calgary; auditor, P. R. Jeffrey, Calgary.

Recently we heard of an individual looking for a room to rent. He had heard of several rooms that were available, but because of high rent, he made application to the Alberta Government Telephones to rent one of their long distance booths. He succeeded in this, but on going to occupy same found it was already occupied by a party who was not paying rent and who told him to go to the hot place, for he didn't give a dam who had a lease of the premises, he was there and possession won nine points out of ten in law.—Ex.

Hon. A. C. Saunders, premier and attorney-general of Prince Edward Island, has been appointed a judge of the Supreme Court of that province, succeeding Mr. Justice Hazard, who has resigned. Hon. W. M. Lea, formerly minister of agriculture, has been sworn in to succeed Mr. Saunders as premier.

While waiting our turn in a barber shop here recently, we overheard a complaint being made about excessive charges. The barber replied, that with the bad weather, slump in stocks and the income tax falling due, faces were so long and glum the barber was operating at a loss and the rates had to be maintained.

The contract for building the new arena and curling rink at Macleod has been let to James A. Lambert, of Macleod. The new arena building will be 165 by 201 feet, and will have seating capacity for three thousand people. The skating ice will be of regulation size, and there will be four sheets of curling ice.

A commercial traveler, calling upon a new customer, produced by mistake a snapshot of his fiancée instead of his business card. "That's the firm I represent," he said. The customer examined the somewhat determined-looking features of the young woman, and returned the photograph with the remark: "I'm afraid you'll never be manager!"

Passengers booked for the entire Seville - South - and - North America flight of the Graf Zeppelin, scheduled to begin May 18th, have had to part with \$65.00 before receiving the coveted ticket. This fee covers insurance, berth, towels, bed linen and food. For the stay at the various airports, the passenger himself must pay for his board and keep, as well as for sight-seeing expenses.

The legislative assembly of New South Wales has passed an unemployment relief bill, which authorizes the levy of a tax on persons earning between \$5 and \$30 weekly. Persons receiving higher wages will be subject to a surtax. With the new measure in operation, a yield of \$7,500,000 yearly is expected, to carry on construction of an otherwise unproductive nature, in order to alleviate unemployment. The rate is six cents on five dollars.

George Coote, youngest son of G. G. Coote, M.P., arrived home last Thursday night from Ottawa, where he had been with his parents during the session. Mr. Coote and George had started home and stopped at Oakville, Ontario, to visit Mr. Coote's mother, where Mrs. Coote was stricken with rheumatism and was unable to continue the journey, and George came on alone. Mrs. Coote is reported to be recovering, and expects to be able to return with her husband at the close of the session.—Nanton News.

CARROLL AND ARLEN JOIN FOR GREAT ACTION DRAMA

Nancy Carroll's first starring picture, "Dangerous Paradise," now showing at the Orpheum theatre, is a story of intense love and gripping adventure. In a South Sea island locale, the action moves through climax after climax, with breathless speed, to a logical but happy ending.

Pursued by three villainous men, hunted and beaten, but unbroken in spirit, Nancy Carroll flies to the man she loves, forces him to protect her,

and, as he fights for her, wins his love. It is a powerful theme that carries everything before it. It seizes and holds the attention. Richard Arlen is the leading man, and Warner Oland has an important part.

He was an ardent lover but a poor speller. He thought it safer to write to the girl's father for her hand. His note ran: "I want your daughter—the flour of the family."

"The flour of my family is good," replied her father. "Are you sure I'm not my dough you're after?"

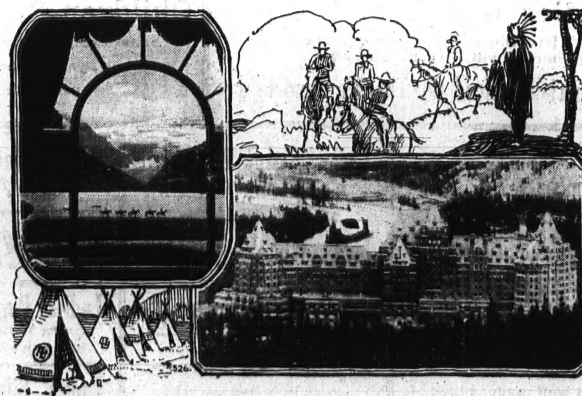

A negro girl came to a bank regularly to draw her weekly pay. She could not read or write, so she made an X on the receipt. Then, one day, she made a circle.

"What's the matter, Mandy? Why don't you make an X as usual?" asked the cashier.

"Why," Mandy exclaimed, "Ah done got married yesterday and changed mah name."

A Compliment—She: "You've been drinking whiskey." Amateur Distiller: "Thank you."

W. C. BAND PRACTICING

The West Canadian Collieries' prize band, Blairmore and Bellevue, has received the test piece, "Novelty Overture," which is the test for amateur band competition in Western Canada, to be played at the Calgary Stampede on July the 7th. From now until that date, the band will be busy practicing up and knocking the rough spots off under the conductorship of George W. Goodwin, formerly of the Yorkshire Dragons and the 12th Mounted Rifles, C.E.F. This band of twenty-eight instruments, 9 of which are from Blairmore, intends making a bold bid for the championship this year. In addition to the above prize, there is to be a march prize. The uniform to be worn by every member at Calgary will be black overalls, black satin shirt and miners' white caps, with electric battery and head light. The two girl members of the band, Misses Betty Ruyemakers and Nellie Royle, will head the band during the parade, both dressed in white, with a red sash, one displaying the name "Bellevue," the other "Blairmore."

The Farm For The Farm Boy?

Every once in a while some pulman car philosopher comes along with a few suggestions on how to remedy the evils with which agriculture is supposed to be afflicted, and frequently winds up with a peroration containing some gratuitous advice to "keep the boy on the farm."

All of which might be all right if the itinerant solon were fully acquainted with the conditions of the country which he calmly surveys from the window, the conditions of the industry about which he decants so easily and freely, and the trend of the times, about which he may, or may not know anything. If, however, he were so well posted he would probably tell the newspaper reporters that he has "nothing to say on the subject today."

Now this question of "keeping the boy on the farm" is not a new one, and it has a good many angles to it, some of which are well worthy of a little reflection by the individual before he decides whether the boy should be kept on the farm, and if so, how to go about it.

The first question that naturally arises is: "Should the boy be kept on the farm?"

This query opens a great realm of speculative thought and examination long before the sequel answer: "How is it to be done?" can be satisfactorily dealt with.

It can be said at the outset, without fear of contradiction, that not all boys are fitted for life on the farm, physically or temperamentally, despite the fact that the farm affords an outlet for the expenditure of a wide range of talents. To try and bind such youths down to a life with the soil, is akin to shipping a consignment of flannel vests and fur coats to the niggers of Equatorial Africa, and about as useful.

And what about agriculture itself? Does agriculture need, and can it offer suitable rewards and satisfaction to, all the boys who are born on the farms of Western Canada?

Here again is a question which has an important bearing on the problem of taking care of the future of the rural youth. Fifty years ago a single farmer could only raise enough produce to feed a handful of people. Today, with the use of highly mechanized and highly powered implements, one farmer can feed a host, and the trend in the direction of increasing the productive power of the individual in the realm of agriculture is neither recording a halt nor a swerve in the other direction.

If science, combined with improved business management, is going to continue to widen the scope of the individual engaged in agricultural production, the time may come when a very considerable proportion of the lads reared on the land will have to look elsewhere for a vocation.

Then, even more than today, the question of determining the fitness, or otherwise, of the rural boy for brining forth the fruits of the earth, will assume a greater importance. As has happened in other industries in the flux of time and change, those best adapted by nature and preparation to agriculture will be those who will stay with the industry, and they only. The others will find other fields more suited to their talents and inclinations.

If the foregoing diagnosis of the trend of the times is correct, it is very fortunate that the Western Canadian provinces have within their borders an infinite variety of resources awaiting the application of the initiative and courage bred in our youths, for their recovery and conversion to the services of mankind.

It is also fortunate that coincident with this tendency to reduce the man power on the farm, a marked development is taking place in industrial life in the west which, along with the development of the resources already referred to, will afford an ever widening outlet for the energies of young manhood.

Progress has always been marked by evolutionary changes of this kind. Usually they bring discomfort to some, but this is inevitable. It is useless to try to stem the forward march. The wise attitude is to try and discern what present day trends may bring in the future and take advantage of the opportunities they may afford.

These are questions which, no doubt, are receiving serious consideration by those responsible for the conduct of education in rural districts. The wise educationist is not content with taking things as they are for granted, but is looking to the future and making adjustments which the necessity of tomorrow may dictate.

Will Study Canadian Method

Soviet Government Interested In Dr. Barnes' Ice Destruction

Dr. Howard T. Barnes is planning to go to Russia, for a two years' stay. If satisfactory arrangements can be made to take care of his Canadian interests, he announces, a commission has been appointed by the Soviet Government for the study

of Dr. Barnes' method of ice destruction and his personal supervision by the engineers in charge has been requested.

As Dr. Barnes now occupies only an honorary professorship at McGill University, Montreal, there will be no difficulty in that quarter, but he has a research institute of ice engineering in Montreal, and the appointment of a principal to replace him there is a duty that must precede his departure.

In Different Form

A diamond, a lead pencil, and a piece of coal are made of the same stuff. These three things are really carbon in different forms, and are just as much one as ice, liquid water, and water vapor. All over the world we can find things which look very different, and yet actually, they are just one and the same thing in different forms.

Stunts Planned For This Year

One Man Plans To Walk Across English Channel

It looks as if 1930 is going to distinguish itself as a year of amazing stunts.

Herewith are just a few of the things that carefree men and women are planning to do during the summer.

Fly an engineless glider across the Irish Sea from Holyhead to Dublin. Walk across the English Channel on water boots.

Cross Niagara in a miniature submarine.

Walk blindfold around the top of one of the tallest buildings in Britain.

A young airman, Mr. Alec B. Trafford, of Birmingham, is to attempt the dangerous feat of flying a glider across the Irish Sea. He has already had considerable experience in glider flying in Germany and is now at work on the machine with which he intends to make his big attempt.

The man who is hoping to cross the channel on water boots is Mr. J. Hazard, who has invented an ingenious device consisting of a pair of ordinary shoes attached to the tops of two airtight bags, which he inflates with a bicycle pump. To help him lift his 21-mile stroll across the waves he will use a pole attached to another inflated bag. He will obtain safety from a floating quick-lunch counter, to be established somewhere near mid-channel.—From Pearson's weekly.

PEOPLE "ALL NERVES"

What To Do If You Find Yourself In This Condition

The sort of thing that specialists call nervous debility is the run-down condition caused by over-work, household worries. The sufferer finds themselves tired, low-spirited and unable to keep their mind on any one thing. Any sudden noise startles and sets the heart palpitating violently. They cannot sleep well at night; their hands tremble and legs seem unable to support them. Such a condition is indeed pitiable.

Doctors of the nerves with sedatives is a terrible mistake. The only nerve tonic is a supply of good red blood. Therefore the treatment for nervousness and run-down health is Dr. Williams' Pink Pills, which promptly build up and enrich the blood. The revived appetite, the strengthened nerves, improved spirits and new strength which come after a course of these pills will delight every sufferer.

You can get these pills from any medicine dealer or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Preparing Eggs For Storage

The new egg-canning and egg-processing plant at the Pacific Coast Terminals, Limited, is now in operation, preparing eggs for storage and canning them at the rate of 500 cases a day.

Miller's Worm Powders not only make the infantile system untenable for worms, but by their action on the stomach, liver and bowels, they correct such troubles as lack of appetite, biliousness and other internal disorders that the worms create. Children thrive upon them and no matter what condition their worm-infested stomachs may be in, they will show improvement as soon as the treatment begins.

Something New In Business

Renting overcoats has proved a successful business for a store at East Ham, London, England, during the recent chilly weather. The rate for use of the garments is the equivalent of four cents a day, and a small deposit is required. Many rent the garments for only one day.

Could Hardly Live For Asthma, writes one man who after years of suffering has found complete relief through Dr. J. D. Kellogg's Asthma Remedy. Now he knows how needless has been his suffering. This matchless remedy gives sure help to all afflicted with asthma. Inhaled as smoke or vapor it brings the help so long needed. Every dealer has it or can get it from your man of his wholesaler.

Value Of Timber Increased

Special timber cruises to establish the true value of timber holdings and the transfer from "wild land" to the timber land categories of certain areas in British Columbia have increased the assessed value from \$18,822,927 in 1927, to \$25,81,970 in 1928.

A Blind Soldier-Lawyer

South African War Veteran Practices Profession In Ontario

Those who know him will never think of Colonel Lord W. Mulloy, blind South African War veteran as sightless. Colonel Mulloy, long known to the British and Canadian peoples as Trooper Mulloy, is an active law practitioner at Iroquois, Ontario.

His pleadings take place largely in Cornwall, and one recalls that the first case he handled was as defending lawyer in a murder trial there.

When Colonel Mulloy came back from England after his Oxford studies, General Sam Hughes, then Canadian minister of militia, found him a post in the Royal Military College where he remained several years. He was named as a recruiting officer throughout Canada during the Great War.

Then he decided to study law, on the advice of his friend John Godfrey, K.C., of Toronto. The colonel took his law course in one year, which usually takes three years, and the Ontario Law Society called the distinguished soldier and scholar to the bar. He decided to live in Iroquois, which he knew from youth, and bought a fine old stone residence and garden on the banks of the St. Lawrence River at that place, changes in which he directed himself.

Campers Carry Minard's

Resting Place Of Statesmen

Lord Balfour's desire to be buried on his own estate recalls the variety of attitudes statesmen have adopted towards sepulchre in Westminster Abbey. Bonar Law, a Presbyterian, and Gladstone, a convinced Anglican, both rest in the Abbey alongside the Pitts, Peel and Palmerston—Anglicans all of the Restoration type. Disraeli preferred a country church, and both Salisbury and Lord John Russell chose to lie with their ancestors rather than in the Abbey.

For Scalds Or Burns.—Dr. Thomas' Electric Oil is a standard remedy for the prompt treatment of scalds and burns. Its healing power quickly soothes the pain and aids a speedy recovery from the injury. It is also an excellent remedy for all manner of cuts, bruises and sprains, as well as for relieving the pains arising from inflammation of various kinds. A bottle in the home and stable saves many a doctor's and veterinarian's fee.

A New Motor Disease

"Driver's heel" is the latest disease. Rough roads, requiring constant working of pedals and controls, are responsible for this trouble, which can be very painful. Doctors with patients suffering from the new ailment are recommending that heel mats of some soft material should be provided by motor manufacturers, particularly for racing cars.

Why suffer needlessly? Douglas' Egyptian Liniment brings quick, sure relief to scald feet, soft corns and warts. Relieves inflammation. Removes proud flesh.

Can Supply Canada's Needs

An investigation made by the Canadian Government Department of Mines shows the sodium sulphate deposits in Saskatchewan containing over 100,000,000 tons of natural hydrous salt, enough to supply the Dominion's requirements and to furnish a surplus for export. One of the chief uses in Canada of this "salt cake" is in the production of sulphate or kraft pulp.

If you do only what you're compelled to do, you're a slave; and the way to set yourself free is to do what you are not compelled to do.

Peace Park At Border

Washington State School Children Subscribe Toward Its Establishment

Thirty thousand school children in the state of Washington, have subscribed ten cents each while their teachers have given twenty-five cents each, toward the purchase of 85 acres of land on the United States side of the border for the establishment of an international park at Blaine, on the International Boundary. The Trades and Labor Council at Vancouver were told by a visiting delegation from Bellingham, Washington, of the donations. It would be the first international park in the world, the delegates said, urging that an equal amount of land be provided on the Canadian side.

If the same interest is taken on the Canadian side as on the United States side, it was stated, "the project will be a great success."

It was suggested that an annual celebration might be held by both countries at the park on the second of July each year.

Around the Corner

Since the stock market crash last October, none of these economic and financial wizards have ventured to cheer us up with the yarn that "good times are just around the corner." It seems that no one has any idea what's around the corner—and never did have.

Sour Stomach

Just a tasteless dose of Phillips' Milk of Magnesia in water. That is an alkali, effective, yet harmless. It has been the standard standard for 50 years among physicians everywhere. One spoonful will neutralize at once many times its volume in acid. It is the right way, the quick, pleasant and efficient way to kill the excess acid. The stomach becomes sweet the pain de-

parts. You are happy again in five minutes. Don't depend on crude methods. Employ the best way yet evolved in all the years of searching. That is Phillips' Milk of Magnesia. Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any druggist.

BUDGET ADOPTED BY MAJORITY OF TWENTY-EIGHT

Ottawa, Ont.—The final budget of the 16th Parliament of Canada passed the House of Commons by a majority of 28 votes. Two members of the Conservative Party and one member of the U.F.A. group voted with the government.

Supporters of the government lined up solidly behind the fiscal proposals brought down by Hon. C. A. Dunning, Minister of Finance, May 1st. The vote stood:

For the budget, 114.

Against the budget, 86.

Opposed to the budget were the members of the Conservative party with the exception of Finlay MacDonald, member for Cape Breton, South, and T. E. Simpson, member for West Aroostook. Both of these Conservatives represented constituencies in which the iron and steel industry is prominent. They had previously announced that they favored those provisions of the budget which they considered advantageous to their constituencies, and consequently they supported the government.

L. W. Johnstone, Conservative member for Cape Breton, North-Victoria, had previously announced that he favored provisions of the budget which he considered advantageous to the iron and steel industry. Being paired, however, he did not vote. L. H. Jellif, U.F.A. member for Lethbridge, Alberta, supported the budget. Crowded galleries looked down on the stirring scene which featured the final day of budget debate. Shortly after six o'clock the house had defeated the sub-amendment and amendment to the budget which were offered by the Progressive group and the Conservative opposition respectively.

The sub-amendment, sponsored by W. R. Fansher, member for Last Mountain, Sask., was moved under a vote of 117 to 19. Its entire support came from the Progressive, U.F.A., and Labor groups in the house.

The Conservative amendment, which was moved by Hon. R. B. Bennett, Opposition leader, met with a similar fate by a majority of 60 votes. In this case the division stood: For the amendment, 64; against, 124.

May Increase Salaries

Postmaster-General Will Try To Secure Higher Pay For Postal Workers

Ottawa, Ont.—Further attempts will be made to find a way to increase salaries of postal workers, Hon. Peter Veniot, postmaster-general, promised officers of the United Postal Employees of Canada after a conference extending over three days. Mr. Veniot pointed out that his previous attempts to secure increases for the men have been unsatisfactory owing to decisions of the civil service commission, but consideration would be given to alternative methods of attaining the desired result.

Indian Flies Back to England
Croydon, England.—The Parsee Indian flyer, R. D. Tata, arrived by aeroplane alone from India, after a nine-day flight in an attempt to win a prize of 5000 pounds sterling offered by the Aga Khan for the first solo flight by an Indian from India to England. The best times made by other contestants were 17 and 23 days, respectively.

Pay Tribute To Explorer
Oslo, Norway.—Norway recently paid official tribute to Dr. Fridtjof Nansen, whose sudden death occurred May 13. The Storting, or legislature, held an extraordinary meeting at which President Hamsbo voiced the country's praise of the great explorer and humanitarian. The Storting's offer to pay the explorer's funeral costs was accepted by the Nansen family.

Naval Parley Was Costly
London, England.—Cost of the London naval conference to the British public funds was almost a thousand dollars a day. Figures made public show the complete expenditure was £17,000 about \$35,000, or an average of £182 (about \$910) daily for a period of 91 days.

Plans Are Questioned
Ottawa, Ont.—Proposed construction of a toll storage plant and fish wharf at Vancouver by the Vancouver Harbor Commissioners is the subject of a series of questions placed on the order paper of the House of Commons by Hon. H. H. Stevens (Cons., Vancouver Centre).

Delegates To Labor Conference Named

Selections Have Been Announced By Hon. Peter Heenan

Ottawa, Ont.—Gerald H. Brown, assistant deputy minister of labor, and Dr. W. A. Riddell, Canadian advisory officer resident at Geneva, will be the two official Dominion Government delegates to the 14th annual meeting of the International Labor Congress meeting at Geneva, on June 10 next.

Mrs. R. F. McWilliams, of Winnipeg, has been named to accompany three Eastern Canada men as technical advisers to the official delegates. Announcement of the selections was made here by Hon. Peter Heenan, Minister of Labor.

Major J. H. Roaf, chairman of the British Columbia division of the Canadian Manufacturers' Association, is to attend the congress as representative of the employers of labor while Tom Moore, president of the Trades and Labor Congress of Canada, will represent the workmen.

Aviation Valuable To Canada

More Development Is Urged By Dr. W. R. Boyle

Saskatoon.—That Canada will gain more by the development of the aeroplane and radio than any other country in the world, was the statement issued by Dr. W. R. Boyle, principal of the physical science division of the new national research laboratories at Ottawa.

He emphasized the value of the aeroplane and radio in bringing together certain parts of our country, which with its wide stretches of unoccupied territory would remain isolated and inaccessible without the aid of these two developments of science. Dr. Boyle said that particular attention was being paid to aeronautics at the research department at Ottawa.

Workers' Bill For Debate

Measure Has Been Referred To House Of Commons

Ottawa, Ont.—A measure respecting employment of Canadian workmen on Dominion Government contracts was referred in the House of Commons to the committee on industrial and international relations.

The sponsor of the bill, Dr. J. J. E. Guerin, (Liberal, St. Ann), introduced the measure in the House of Commons of serious interest to labor, especially in the City of Montreal. In brief the purpose of the bill, he proceeded, was to provide that there should be no age limit in respect to Canadian workmen seeking employment on government contracts.

Will Holiday In Europe

Successful Western Farmers Going Back For Short Time

Toronto, Ont.—Fifty-five farmers, mostly from Alberta, and made up of Ukrainians, Finns and Central Europeans, have arrived here on their way to Europe. Travelling in ten automobiles, men, women and children, some of the latter barely remembering the land of their birth, are going back for a holiday tour after successfully establishing themselves on the land in Canada.

Starting from Edmonton, the party motored over a route carrying them through parts of the United States then crossing again.

Would Use Old Law

Paris, France.—With a view to making France unhealthy for loafers and petty criminals, a bill has been introduced in the chamber which invokes a law of 1885 to the extent of imposing the choice between expulsion and permanent confinement at hard labor for any person who, having already spent at least six months in prison, shall have been convicted a second time.

For Scott Centenary

London, England.—An appeal to Scotsmen throughout the world to subscribe five thousand pounds sterling (nearly \$25,000), towards a suitable and dignified way of commemorating the centenary on September 21, 1832, of Sir Walter Scott, the great novelist, has been issued by the Duke of Buccleuch, president of the centenary committee.

Early Wheat In Alberta

Edmonton, Alberta.—Many of the early sown wheat fields of central Alberta are standing with even grain of excellent color to the height of two and three inches. According to the monthly crop report of the Journal, fully 60 per cent of the wheat is showing green, and all is germinating evenly.

Britain Has Refused Demands Of Arabs

Proposals From Palestine Told

London, England.—The British colonial office issued a statement declaring that the demands of the Palestine Arab delegation, which has been in London discussing the future of their fellow-countrymen, for constitutional changes were "wholly unacceptable."

At the same time the Arab delegation, which recently declared it had reached a deadlock in the negotiations, announced it would leave for Palestine on May 23.

The colonial office statement said the government had taken note of the Arab demands but had told the delegation its proposals could not be accepted "since they render it impossible for His Majesty's government to carry out their obligations under the mandate."

RECONSTRUCTION OF C. N. R. WILL BE POSTPONED

Ottawa, Ont.—Without a division and with very little debate the Senate gave three readings each to the bill restoring the natural resources of Manitoba, Saskatchewan and Alberta to those provinces. They previously had been passed through the House of Commons as government measures.

Hon. N. A. Belcourt, acting government leader, in supporting the bills, said the provinces had been dealt with generously and fairly. It had been the government's desire to grant the provinces as wide power as possible and he was impressed with the spirit that animated the proceedings leading to the agreements.

Hon. W. B. Willoughby, Conservative leader, said the natural resources had been an acute question in the west for years, but he believed it had been settled satisfactorily. He referred to the fact that Alberta and Saskatchewan had been given the right to appeal to the courts on constitutional issues. The Manitoba Act, he pointed out, had been passed on by the Privy Council, but neither of the others had been interpreted judicially.

Hon. A. B. Gillis reviewed the past history of the natural resources question in the west. Withholding of the resources under the 1906 incorporation had been disastrous to the provinces, and the present settlement was a complete justification of the stand taken by Sir Frederick Haultain when premier of the Northwest Territories. The provinces, he said, had been forced into direct taxation, and Saskatchewan alone now has a debt of \$70,000,000. If the resources had been given to the province in 1905, the sale of land would have offset the present debt.

HER MAJESTY THE QUEEN AND HER GRANDDAUGHTER

Queen Mary and the members of the royal family have been once again brought strikingly into the spotlight of public esteem by the biography of her majesty by Charlotte Cavendish, recently published in London. Protest Against Method Employed In Reference To Leakage Of News

London, England.—In connection with the probe into the leakage of news from government sources connected with the arrest of Gandhi in India, the Newspaper Owners' Association has raised its powerful voice against certain sections of the Official Secrets Act of 1920, under which the detectives secured their warrants to invade the home and question the newspapermen. The association has adopted a resolution regretting the government action and calling it unjustified interrogation of a journalist who collected his news by a legitimate and open method. The resolution expresses concern for the freedom of the press and demands amendment of the act in the public interest. A copy of the resolution was forwarded to Prime Minister Ramsay MacDonald.

Will Hold Opium Conference

League Of Nations Council To Meet In December

Geneva, Switzerland.—Measures for strengthening the forces fighting the illicit opium traffic by calling up help from the "victim" countries were taken by the council of the League of Nations.

The council tentatively set December 1 for holding an international opium conference at which the chief matter for consideration will be a proposal to limit the world manufacture of narcotics to the world's medical and scientific needs.

Chinese Stage Battle

Winnipeg Is Scene Of Riot Between Oriental Factors

Winnipeg, Man.—Axes and baseball bats were wielded in Winnipeg's Chinatown as two Oriental factions clashed in riotous street warfare. Three Chinese were so seriously injured that they were taken to hospital, while numerous others were being attended at their homes. Seven Orientals are under arrest.

Rioting broke out shortly after midnight with two-score members of opposing political factions milling in the fray which began when two Orientals engaged in combat. From stores and residences in the surrounding area, within a block or two of the city hall, poured Chinese armed with axes, picks and baseball bats. Several were knocked unconscious in the mob-clash.

Police arrived while the riot was in full swing and the batters disappeared within a few moments, leaving injured men on the road and in the gutter. Fleeing combatants were arrested and the more gravely hurt were hurried to hospital. Condition of the three wounded men was reported as showing improvement.

Survey Of Natural Resources In B.C.

Information Is Being Sought On Peace River Block

Victoria, B.C.—Under an agreement between the British Columbia government and the Canadian government, the Canadian National Railways and the Canadian Pacific Railway, announced by Premier S. F. Tolmie, a systematic natural resources survey of the Peace River block will be launched almost immediately and carried on all summer.

The survey organization under Major C. R. Crysdale, which conducted the Pacific Great Eastern Railway survey of last summer, will handle the Peace River block investigation also.

The government and the two railways will share the cost of the work jointly as before.

"We need this information on the Peace River block before we can intelligently deal with the future of this great area of about 8,000,000 acres," the premier announced.

SENATE AGREES ON RESOURCES BILLS FOR WEST

Ottawa, Ont.—It is not the intention of the government to proceed with the financial reconstruction of the Canadian National Railways this year, Hon. T. A. Crerar, Minister of Railways, told the parliamentary committee which has examined the estimates of the National system here. The government had proposed to introduce a bill dealing with the amalgamation of the various constituent companies, but no progress having been made previous to the Easter recess, it was doubtful if that bill would now be dealt with in view of the approaching dissolution of parliament.

"I frankly confess," said Mr. Crerar, "that, assuming my duties as Minister of Railways in February, I haven't been able to get a clear idea of what is involved beyond the fact that it is a tremendous task."

"I doubt if the amalgamation will now be proceeded with, but it should be done next session."

Sir Henry Thornton, president of the C.N.R., informed the committee that as far as the railway was concerned all the investigations had been made in connection with the financial reconstruction and the company's recommendations were ready. Mr. Crerar, however, had had no opportunity to enquire into what was an exceedingly complicated problem. The situation now was one of simply determining what the government wanted to do. The executives of the C.N.R. had submitted their recommendations this year.

The problem of financial reconstruction had been under intensive study for the past six years and he did not suppose that any more complicated task had ever been undertaken on account of the large number of records, mortgages, securities of different terms and rates of interest. These had all been finally catalogued and straightened out. It was now at the pleasure of the government and the will of parliament. The company itself was prepared to go ahead with the matter.

The re-organization scheme did not involve the disturbance of existing issues.

BRITISH PREMIER SATISFIED WITH NAVAL TREATY

London, England.—Prime Minister Ramsay MacDonald told the House of Commons the primary reason for the London naval conference which, he declared, was the United States program of naval construction.

"We were perfectly agreeable that the United States should build to parity," said Mr. MacDonald, "but what had not been settled was: 'What was the program of parity?'" "Many thought it was unnecessary to pursue the Washington agreement any further," continued the prime minister, "and they said: 'Why should we worry about the fact America is putting upon the waters?'" While this view was most attractive it was very unsound.

"If the whole world occupied to America, the naval conference which we did, and do, it would be a sound view, but, unfortunately, that was not the case. Whether we took notice of what America was doing or not, other nations would, and with the building of these other nations we are concerned."

"Consequently we were forced to the conclusion that the foundation of real security was an international understanding between America and ourselves, such as we were able to effect at the London conference. That piece of work has been done."

"The spectacular effects would have been much greater if the London conference had not been from the beginning, only a three-power conference which would have been a high seas conference, pure and simple, between the United States, Japan and ourselves."

"But Britain could not obtain security by an agreement between the three powers only."

Washington, D.C.—Two grey-haired admirals of the United States navy, each with upwards of a half-century of distinguished service behind him, disagreed pointedly over the merits of the naval treaty in London.

Sounding the first note of protest from an official quarter, Rear Admiral Hilary P. Jones, long an outstanding figure among navy men, told the Senate foreign relations committee that he not only disagreed with many of the decisions of the London conference, but thought a different settlement would have been entirely possible.

At the same time Admiral William V. Pratt, commander of the U.S. battle fleet, was advising the Senate naval committee that the treaty suited him, that he was satisfied to have fewer eight-inch gun cruisers than the navy previously had asked, and that in any case the United States delegation at London got the best it could.

New Submarine Launched

Is First Of Its Class In The Royal Navy

Chatham, England.—The submarine, "Rainbow," 1475 tons, first of her class in the Royal navy, was launched. There are three other submarines of this class and 12 others in hand. This total of 16 being designed to replace 36 submarines which will automatically become obsolete by the end of 1932.

If no further submarines are laid down than these 16, the British submarine strength will be cut from 56 to 30 at the end of 1932.

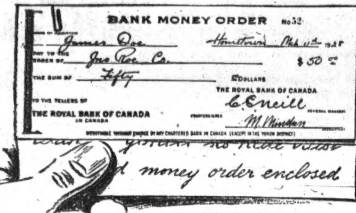

The naming ceremony was performed by Mrs. Addison, wife of Vice-Admiral Addison, director of dockyards. After a religious ceremony, a bottle of Australian burgundy was broken over the stern bow of the vessel and she slid into her element.

No Change In Surveys

Ottawa, Ont.—Return of the natural resources to the western provinces, which is expected to bring an arrangement between the Dominion government and the provinces concerned regarding the continuation of aerial forest protection work in the west is having no immediate effect upon the air fleets of the government, for their year extension plans are underway for the protection and survey of wide areas all over the prairies.

Receives Fellowship

Winnipeg, Man.—Dr. Murray Clegburn, B.A., M.A., has been selected for a fellowship in Public Health in the Connaught Laboratories of the University of Toronto. Word to that effect was received by Dr. T. A. Pincock, deputy minister of Public Health, from Dr. Fitzgerald, director of the Connaught Laboratories, and the school of Hygiene of the University at Toronto.
